Art Unit: 3728

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

2. Claims 19-25 are finally rejected under 35 U.S.C. 102(e) as being anticipated by Shiffler et al. (Figures 4-7)(6,564,942). Shiffler et al. discloses a method of assembling a wound film dispenser, including folding a blank into a tube (Figure 5), inserting a roll of wound film (Figures 5 and 6), folding false walls (98 and 102) into the tube (Figure 7) and folding a flap (100 or 104) against each of the false walls, the false walls including wedge-shaped braces (each strut 102 on either side of apex 142, see column 5, lines 20-31).

As to claim 20, plural flaps (100 and 104) are disclosed and folded.

As to claim 21, each brace is folded relative to one of the false walls.

As to claims 22 and 23, each wedge-shaped brace (half of 102) is folded relative to a back edge (opposite 104) and a top edge (116) of the false wall.

As to claims 24 and 25, a tear strip (68) is adhered to the front surface of the blank and attached along a score line (66) and adhered by discrete areas (69) of adhesive.

3. Applicant's arguments filed September 27, 2004 have been fully considered but they are not persuasive. The addition of "wedge-shaped braces" fails to distinguish from the struts 102 of the earlier patent to Shiffler et al., where the wedge-shaped recesses define wedge-shaped portions of each strut.

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
